Do Not Panic – Be Prepared – Information is Power

Insurance agents help people manage risk and we are definitely in a “time of risk” with event cancellation, travel restrictions, school closings, employee layoffs and small business challenged with loss of revenue and interruption of their normal business.

Resources and information are available on our website at www.iasd.org with topics on Loss of Business Income coverage, Workers Compensation coverage, and ACT Disaster preparedness. Links are provided to WHO, CDC and many articles on insurance coverage.

Errors and Omissions guidelines on coverage questions along with a sample commercial lines client letter are also available under [Westport Resources](#).

Remember.... Your national and state association are here to help. Call with any questions or concerns you may have. 605-224-6234; email chofer@iasd.org.
